**IS YOUR
INVESTMENT
PROTECTED?**

Save Money

- Prevent costly breakdowns
- Reduce energy usage (by keeping the equipment running at peak efficiency)
- Extend the life of your equipment
- Ensure the manufacturer warranty is not jeopardized (for lack of maintenance)
- Discounts on services/repair work
- Earn Loyalty Points for each year renewed towards discounts on your next purchase or accessories on your system.

Air Quality and Comfort

- Change filters regularly for improved airflow and filtration, removing pollutants and allergens
- Assure proper Humidification/Dehumidification
- Remove pollutants and allergens

Keep your home safer

- Protect the heating and cooling system from failing when most needed (causing frozen pipes, water damage, excessive heat)
- Assure there are no carbon monoxide issues

Peace of Mind

- By knowing that your heating and cooling system has been properly maintained and cleaned and there are no common breakdown issues looming

To do this we:

- Check filter condition
- Clean debris from indoor and outdoor coils to assure proper airflow
- Check functionality and electrical values of all electrical components
- Check for proper refrigerant charge
- Check and adjust blower fan speeds
- Check and adjust gas pressure(s)
- Check temperature rise/drop, to insure equipment is operating at full/optimal capacity
- Check for and clear blockages in condensate drain system
- Check thermostat operation and settings

Two visits a year, one for cooling and one for heating. Don't miss out on your priority scheduling, discounts, and with our Gold Plan, Loyalty Club to accrue points for even more discounts.

Monthly Service Plan Options:

Prices based on equipment types.

- **Gold Plan** - \$250.00

Monthly plan is \$21.00/mo.*
