

For Immediate Release

Accurate Mechanical named Air Conditioning Contractor of America (ACCA) Commercial Contractor of the Year 2025

Accurate Mechanical, a leading provider of commercial HVAC and plumbing services, is proud to announce that it has been named the Air Conditioning Contractors of America (ACCA) Commercial Contractor of the Year for 2025. This prestigious award recognizes the company's outstanding commitment to excellence, innovation, and customer satisfaction in the HVAC industry.

"We are incredibly honored to receive this award from ACCA," said Brian White Vice President of Accurate Mechanical. "This recognition is a testament to the hard work and dedication of our entire team. We strive to provide the highest quality service to our clients, and this award validates our efforts."

The ACCA Commercial Contractor of the Year award is given annually to a contractor who demonstrates exceptional performance in areas such as business operations, customer service, and community involvement. Accurate Mechanical was selected from a competitive pool of nominees for its innovative solutions, commitment to sustainability, and exemplary customer service.

The Air Conditioning Contractors of America (ACCA) is a non-profit association serving more than 60,000 professionals and 4,000 businesses in the HVACR community. ACCA is dedicated to promoting professional contracting, energy efficiency, and healthy indoor environments.

ACCA stated, "The contractors at Accurate Mechanical are more than just contractors—they are educators, mentors, and problem solvers. Their in-house training facility, factory-authorized dealer status with multiple top manufacturers, and ACCA MIX Group participation ensures that every technician is equipped to deliver the highest level of service. Their reach is impressive, with multiple locations, over 600 commercial preventative maintenance customers, and more than 3,000 residential service agreements. This past year alone, they added over 60 new employees, a testament to their continued growth and investment in the future of the industry. But beyond the numbers, what truly sets them apart is their dedication to developing the next generation of skilled professionals through high school internships, externship programs, and HVACR and plumbing apprenticeships. With a legacy of excellence, a commitment to training, and a customer-first approach, Accurate Mechanical represents the very best in the industry."

Tom White, Founder and President of Accurate Mechanical said "Sometimes I wanted to give up but later in my career, I realized God was at the helm and has helped me get through the journey of building a successful business and He has gotten us to where we are today. As I transition, my prayer is that God will continue to guide Brian and team to build the future."
